SKILLS

- **Languages**: C++, Java, C, Python
- **Frameworks**: HTML and CSS, Flask
- **Libraries**: Numpy, Pandas, Matplotlib, Seaborn, Scikit-Learn, TensorFlow
- **Tools/Platforms**: MySQL, Excel, Power Bi, MongoDB, Jupyter Notebook, VS Code
- **Soft Skills**: Problem-Solving Skills, Time Management, Adaptability

PROJECTS

India Election Results Data Analysis (2024) | Github — Aug 2025 – Sep 2025

- Queried multiple relational tables (partywise_results, statewise_results, constituencywise_results) to perform data exploration and integration.
- Calculated total seats won across states and alliances (NDA, I.N.D.I.A, and Others)..
- Created custom columns using CASE and JOIN operations to classify political parties by alliance.
- Derived insights such as top-performing parties, state-wise seat share, and winning margins.
- Compared EVM vs Postal vote distributions and analyzed candidate-level performance.

India GDP Sector Wise Analysis | Github — Jun 2025 – Jul 2025

- Performed data cleaning, preprocessing, and correlation analysis across primary, secondary, and tertiary sectors.
- Handled outliers using the IQR method to ensure statistical accuracy.
- Built and evaluated K-Nearest Neighbors and Decision Tree models to predict per capita GDP.
- Designed Power BI dashboard visualizing trends, sectoral distribution, and top-performing states.
- Outcome: Identified that the tertiary sector contributed the highest share (≈48%) to GDP growth from 2007–2013.

TRAINING

Data Analytics & Industrial Tools with Industrial Practices | Link — Jun 2025 – Jul 2025

- Utilized Python programming along with key libraries such as NumPy and Pandas for data manipulation, statistical analysis, and data preparation.
- Gained proficiency in SQL for querying, managing, and retrieving complex datasets from relational databases.
- Developed and deployed interactive dashboards and reports using Power BI, transforming raw data into clear and actionable business insights.
- Strengthened skills in Microsoft Excel, including data cleaning, pivot tables, and basic visualization.
- Worked on hands-on data analytics projects, applying end-to-end workflows—from data collection and cleaning to visualization and reporting

.

CERTIFICATES

- SQL(Intermediate) by Hackerrank — Oct 2025
- Problem Solving(Intermediate) by Hackerrank — Oct 2025
- Unrevealing Basic Python towards ML/AI.by CSE PATHASHALA — Mar 2024

ACHIEVEMENTS

- Achieved Hackerrank Silver badge in Python
- Achieved Hackerrank Silver badge in SQL

EDUCATION

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.52*** — *Since August 2023*
- **Sri Chaitanya Junior College** — Hyderabad, Telangana
  Intermediate; ***Percentage: 96.9%*** — *April 2020 - March 2022*
- **Aryabhatta High School** — Hanamkonda, Telangana
  Matriculation; ***CGPA: 10*** — *April 2019 - March 2020*
